Adding actions to automate: Actions are tasks that you'd like the flow to perform for you. It takes only **a few steps to set up actions**.

Customizing the logic of your flow: You can **add decisions, delays, and custom functions** to include if-then rules, set waiting times, or execute Deluge statements.

If you have any questions or need assistance, please don't hesitate—just reply to this email and we'll be in touch soon!
